

# EPRINOMAX

## POUR-ON FOR BEEF & DAIRY CATTLE

iO Eprinomax Pour-on For Beef And Dairy Cattle is for the treatment and control of internal and external parasites of beef and dairy cattle and internal parasites of deer.

Containing Eprinomectin, one of the world's most potent endectocides, iO Eprinomax provides broad-spectrum control of internal and external parasites with the flexibility of Nil meat and Nil milk withholding periods. Eprinomax provides persistent activity against many of the species of cattle gastro intestinal parasites that affect the health and performance of your herd (see table for complete list).

Available in a wide range of pack sizes from 250mL through to 20L you will be sure to find a pack that suits your farming operation.

Eprinomax has a standard dose rate of 1ml/10kg, and is in a user-friendly formulation that is kind on guns, and users.
