

Win-win FOR SHEEP PRODUCERS

Only Marks-Min® combines
B12 + Trace Minerals in a single dose
to save you time and money.

Boehringer
Ingelheim

Boost B12 and trace minerals required for optimal production and fertility.

Optimise flock health, production and fertility. Save substantial time and money. Marks-Min® sheep range is the win-win producers have been looking for.

Used at critical times like lambing, joining and at times of oxidative stress, B12 combined with trace minerals in a single injection can provide a vital health and production boost in half the time.

Marks-Min® Low Copper

For sheep deficient in and/or responsive to copper, Marks-Min® Low copper provides an appropriate level of copper for sheep alongside selenium, zinc, manganese and B12 in one convenient, easily absorbed injection.

Marks-Min® Copper Free

For sheep and cattle that don't require copper supplementation, Marks-Min® Copper Free Injectable Trace Mineral with Vitamin B12 provides the same benefits of both B12 and trace minerals in a single injection.
